These guidelines are available: for all digital devices through digital subscription to this website for \$7.99 for one year; this version includes ongoing updates as they occur for the entire year from purchase. This is the 2018, 26th annual edition, written by the author of the pocket card series that includes his most popular "Obstetric Urgency/Emergency Guidelines", which is in its 27th annual edition. Other publications by the same author include: Obstetric Urgency/Emergency Guidelines, Newborn Primary Care Guidelines, Orthopedic Trauma Primary ...Essential obstetric and newborn care is designed as a tool to help protect mothers and their children in adverse environments. It is intended for midwives, doctors with obstetrics training, and health care personnel who deal with obstetric emergencies. This guide is not intended as a treatise on obstetrics, or as a replacement for years of Urgent Care Medicine Primary Care Guidelines. This extensive, concise, rapid reference guideline is created for clinicians practicing urgent care medicine. This is an excellent portable resource for family physicians, internists, physician assistants, and nurse practitioners who provide urgent medical care in a full range or urgent care clinic.
